

Schweitzer Engineering Laboratories Positions Itself for Growth With Leadership Team Expansion

As part of its ongoing focus on growth, stability, and global success, Schweitzer Engineering Laboratories, Inc. (SEL) is pleased to announce additions to its leadership team.

Dr. Edmund O. Schweitzer, III, the President of SEL, announced that Luis D'Acosta, formerly SEL's Chief Operating Officer (COO), has accepted the position of Chief Executive Officer (CEO). Formerly the director of SEL's subsidiary in Mexico and more recently the COO and corporate Vice President of Sales, D'Acosta brings to the CEO role a wealth of knowledge about SEL and experience in the electric power industry and beyond.

SEL President Dr. Edmund O. Schweitzer, III, and CEO Luis D'Acosta

"Luis has a clear vision of how SEL will continue to reach new markets and geographies with SEL products and services," Schweitzer said. "I know he will keep innovating, growing people, and finding new ways to serve customers in his CEO role. I am looking forward to many years of working together with Luis in continued partnership with our customers around the world."

Schweitzer will continue in his role as the company's President as well as its Chairman of the Board of Directors, focusing on the company's strategic direction, technology, and thought leadership. An active participant in technical conferences, industry associations, and business organizations, Schweitzer will continue his current internal and external roles as President.

As SEL celebrates thirty years of business in 2014, it continues to serve new customers, hire new employees, and create new products and services. These leadership changes fortify the company's existing leadership structure and help to position it for thirty more years of growth and success.
